

# RECORD OF PROCEEDINGS

Minutes of

Regular

Meeting

Belmont Graphics Corp., Colo., U. Form No. 127

Held Aug. 4, 1987

19

The regular meeting of the Boston Twp. Trustees was called to order by Chairman Dan Schneider, Jr., to transact the business of the township. Present were Trustees Dan Schneider, Jr., Joseph A. Twp. Solicitor Edw. Pullekina and Clerk Longina Morgan. Absent: Trustee George Fisher, Jr.

The clerk presented a letter from Paul Swanson, County Engineer, regarding increasing motor vehicle taxes. No action was taken.

The clerk inquired about paying Peninsula Village for police contract for the month of June 1987. Mr. Broderick moved that the township not pay the bill as the township has no contract with the village and that wage increases and vehicle purchase had not been discussed with the township. Mr. Schneider seconded the motion. Voting yes - Schneider, no- Broderick. No contract has been signed for police protection by Boston Twp. and Peninsula Village. The township has notified the village that the month to month agreement will expire Sept. 30, 1987, and that bids will be taken for police protection.

A motion by Schneider, seconded by Broderick, to pay the bills. Voting yes: Schneider, Broderick.

A motion by Schneider, seconded by Broderick, to approve the payroll. Voting yes: Schneider, Broderick.

Mr. Schneider stated that the post for a mail box on the Herbst property on Wheatley Road has not been removed. He also stated that Richfield Twp. had lowered the speed limit on 13 of their roads and that Boston Twp. should look into their right to lower speed limits on our roads.

A motion by Schneider, seconded by Broderick, to purchase thirty "Entering Boston Township" signs, painted green and white, at a cost under \$200.00. Voting yes: Schneider, Broderick.

A motion by Broderick, seconded by Schneider, that the trustees proceed with the repairs to the brick building, bringing it up to fire code. A local architect should be hired to draw up plans. Voting yes: Schneider, Broderick.

Mr. Broderick had spoken to John Krusinski regarding zoning books. Mr. Krusinski is to call a zoning meeting as soon as he returns from vacation.

Mr. Broderick stated that he has received minutes and money spent from the Fire Board but the amount of calls and where they were were not included. A motion by Broderick, seconded by Schneider, to request this information from the Fire Board. Voting yes: Schneider, Broderick.

Mr. Broderick's question regarding the tree on J. Bzeczynski's property still is pending a survey as to whether or not the tree is on the road right of way.

Mr. Ratner complained of rubbish being dumped on Oak Hill Rd. He felt that the road should be policed to prevent same. He also complained about uneven spots on the edges of roads being tarred and chipped. Mr. Schneider stated that Akron Paving is not responsible for this unless they are motor paving a road. The township will have to take care of this problem.

Mr. Gioia complained about foliage being removed on the eastern side of Hines Hill Rd. He felt that erosion would take much faster if foliage is removed. Mr. Schneider is to look into same.

A discussion was held on the police contract. Mr. Broderick

felt that the township was not getting its money's worth. While the Village is running radar, he felt that the township was not being protected. On checking records of the Village, he stated that there were discrepancies in the budget figures and the amounts received. He felt that that money from radar and fines should come off the top of the budget. Mr. Schneider felt that the township would get no better protection from the Summit County Sheriff. The township will go ahead with drawing up specs for police protection.

A motion by Broderick to accept bids without publishing for same (Mr. Pallekins stated that this is a personal contract and does not have to be published by the trustees). Mr. Schneider did not second the motion as he felt that all three of the trustees had started this project and that they should wait until all trustees are present.

Several residents were present regarding Oak Hill Road. Mr. Pallekins stated that John David Jones should have a cost analyst this week. Mr. Ratner stated that the last three rains have deteriorated the road further. He stated that someone had dug a ditch at the bottom of the hill making the situation worse. He suggested that the trustees hire an engineer to help the township with the road problems. He was told that the township had put out bids for same but had no response.

Mr. Griffith felt that the Summit County Engineers considered that there was community up here and there not enough people to be concerned about. He hoped that the trustees were concerned about the people and would keep the road open. He stated that people living here are knowledgeable, and that the engineer was being negative about the road.

Mr. Lee asked what is the obsession with closing the road and were the drains being plugged up intentionally.

Mr. Gioia suggested that three contractors be contacted and give their opinion on the hill. A committee to oversee same is made up of Dan Schneider, Doug Anderson, Max Ratner, Robert Gioia and Marty Griffith.

A motion by Schneider, seconded by Broderick, to adjourn.

Chairman

Clerk
