

Minutes of September 10, 1986 meeting

Meeting was brought to order by president George Fisher Jr. Present were Fisher and Joe Broderick. Absent were Dan Schneider Jr. and Clerk Molly Morgan. Fisher moved to have Doug Anderson take the minutes. Second by Broderick. Res. 11. 104

Broderick said to set up an agenda for the September 17 meeting. Discussed will be the police and fire contracts for next year. Fisher mentioned that the village wanted a joint meeting to discuss these items. Fisher and Broderick both agreed that no meeting would be scheduled until copies of the contracts were had to be gone over. Fisher also mentioned the liability insurance of the police dept. and including the township in the coverage and for what amount.

Fisher was to ask Ed Fullekins about vacating the township's rightaway on Barlow Rd. east of S.R. 8 and Wheatley Rd. from the curve to the bridge at Everett Rd. These sections of road no longer carry traffic and are of no use to the township.

Anderson reported that salt for this winter went down in price. The price for this year is \$16.18. This price is good until September of 1987. The village will be contacted about a contract for purchasing salt. Anderson reported that centerlines would be a good thing to have put down on our more heavily traveled roads. The lowest price obtained was from Neat-Line Co. of Twinsburg. The cost was \$2,326.50 for 8.24 miles of double yellow line. Roads to be done are Major, Stine, Stanford, Oak Hill, Mines Hill, and Wheatley. Also stop lines at all intersections for a cost of \$300. This was tabled until the 17th meeting.

cont.

Fisher said that Schneider had said something to him about some limestone for the berm. Anderson said that the total needed was not calculated yet but would be soon.

The county still has not sent recommendations on the repair of Oak Hill so the hill remains closed. Anderson stated that 4 rear tires would be needed for winter on the Chevy dump truck. He would have prices by the Sept. 17 meeting.

Broderick asked if the library would take the mowing tractor because the township couldn't mow the grass any more. Fisher said he would ask the library if they wanted it.

Being no further business, Fisher moved to adjourn & seconded by Broderick.
