

Minutes for a Special Meeting of the Boston Township
Trustees, September 9, 1985.

The meeting was called to order by chairman George Fisher Jr. Present were George Fisher Jr., Dan Schneider Jr., and Joe Broderick. Absent was clerk Longina Morgan.

Regular rules were waived as this was a special meeting. Schneider and Anderson recommended discontinuing the use of cinders because of complaints of the dirt and dust in the spring. The cinders also freeze in the winter and are hard to break up. Putting calcium chloride on the pile would probably prove too costly. It was decided to use #3 limestone to mix with the salt. Cost is about the same as the cinders and is cleaner and more beneficial to the berms in the spring. Several other communities use this mix with excellent results.

It was moved by Fisher and seconded by Broderick to put out for bid a new salt shed to properly store the salt-limestone mixture and to attach a storage shed to the existing salt shed for winter storage of small equipment. All vote aye. Bid are due at the October 2 meeting at 7:00 pm.

Anderson stated that the dump bed of the older truck would either have to be repaired or replaced before winter. It will be discussed further at a later meeting.

Schneider discussed promoting Tim Tesser to senior road laborer. This will be decided at a later meeting.

Schneider and Anderson brought up about emergency part time help for the winter in case of illness or severe weather. A list of possible persons will be compiled.

Schneider discussed some complaints against the police department. These will be discussed with Ed Pullekens later.

Anderson told of the problem on Mines Hill Rd. with over-weight trucks running on it and doing substantial damage. Broderick moved and Schneider seconded to do a study on lowering load limits on all township roads. All voted aye.

A motion by Fisher and seconded by Broderick to adjourn. All voted aye. Adjourn at 8:40 pm.
